WEBSITE PRESENTATION:

Mr. Gaskill created the Township website in 2013 and presented changes that can be made to a new, updated website. The platform is old with security patches and risks that constantly have to be backed up. It cannot be moved over to a new platform. He updates the modules twice a month and is willing to absorb the yearly maintenance fee towards the build of the new website. The new build would be on the new platform which would not become outdated. He stated that all departments will be able to enter information and he will train everyone. It will take 4 weeks to implement after he receives all information. Mayor Watters asked about the status of where we are on this matter; Ms. Hrebenak stated the Committee wanted to see the presentation and then would come to a decision.

Ms. Hrebenak stated that the Township Committee received a copy of dates that the Census would like to use the meeting room for training. The date they requested is a day we have court. The consensus of the Committee was to give them a date the meeting room is available.

The State would like to meet with the Committee for possibilities for the Rockport Pheasant Farm because they did not receive any RFEI’s back for the rental of the Pheasant Farm. Mayor Watters stated they sent a draft, minimum bid of $75,000. We sent it back, $30,000 is all we can get people to agree to, and the State was adamant about the $75,000 so no proposals were received. They want to meet August 8th or July 24th. Mayor Watters stated they can come to the July 24th meeting during the Committee Meeting. He would like it during a Committee Meeting and have the local politicians attend.

Ms. Hrebenak stated that she received a field use application for Wolverine Softball for the dates of July 1 thru July 21 and August 17 through October 31, a motion is needed to authorize this use.

Mrs. Fascenelli stated that she spoke with Trex in reference to the bag and film recycling with Weis Markets. They will ship two containers shortly. We can start the program on August 1.

ENGINEER’S REPORT:

Mr. Kastrud reported no update on Watters and Heiser Roads. He will reach out to Rich our contact at the DOT to find out status. According to our CFO, we have not yet received the 25% for either of those two roads.

The ADA compliance portion is complete, we are still creating the inventory of all the ramps in town.

As discussed in the last meeting, Mr. Kastrud has not had a chance to contact Dan Grover to find out if he had possible alternate sources of funding for the roads, so he will reach out to him before the next meeting.

Mr. Snyder and Mr. Kastrud will begin the tour of our roads tomorrow morning for an analysis of their conditions.

Mayor Watters asked if it is our obligation to take care of all the Mansfield Township owned retention ponds and if there is a list. Mr. Kastrud responded yes for all the town-owned ponds, but he doesn’t have a list—there is a storm water list. The former DPW supervisor had given Mr. Kastrud a tour and run down of the different basins we are responsible for. Mayor Watters would like Mr. Kastrud to have a list. Mr. Kastrud stated he started a GIS map of the town since we don’t have one. He was able to get license mapping from the DEP and will enter in the basins. He will get a copy of the list from Mr. Snyder to have on hand, and will be able to complete the map. Once the map is completed, he will send the Committee a link. Due to all the rain, Mayor Watters has received complaints about the retention ponds and would like to rectify the situations.

PUBLIC WORKS REPORT:

In Mr. Snyder’s absence, Mr. Farino reported that they finished getting Valley and Hazen Road ready for paving. Weather permitting, paving will begin on 7/8.

Started getting Hoffman, Townsbury, and Westervelt ready for tar and chip. They should be done by tomorrow.

Morris Asphalt is behind, so no date scheduled for us.

An older truck, #4, needed a hydraulic piston rebuilt and re-chromed for the dump. Same truck will need a clutch and transmission because it’s popping out of gear.

Truck #3, the newest of the older trucks, is going to need a clutch.

Mr. Snyder and Mr. Farino will meet tomorrow to go over the marking of basins for stormwater.
A large tree on Komar Road is in the right-of-way that’s deteriorating and tilting toward a house. Mr. Snyder is meeting with a tree company to take down the tree with a crane. Mayor Watters asked if any wires were involved because a company called him last week stating they are going through the municipality in regards to tree removal involving wires. Mayor asked that Mr. Snyder contact the company to see if they can remove it. Mr. Kastrud had previously gone out to look at the tree. Discussion about who’s responsible for the tree removal—the home owner, the Township, or the State since they did damage to the tree with curb installation. Mr. Kastrud will contact the State district office tomorrow to see if it’s in Rt 57’s right-of-way. Mr. Farino asked to also inquire about Hazen Road by 57 which also has tree damage due to the work done.
