Mr. Misertino explained his issues with the budget. As head of finance he was never made aware of a new title being added and an increase for an individual. Mr. Misertino explained that last year the courses were sold as a professional development course for doing the current job more efficiently and effectively. Mr. Misertino stated that
he feels that $9,000 is excessive and it doesn’t seem fair that this was not offered to other employees to take the courses and apply for this title. It seems that the other committee members were already in agreement with this raise and position and it felt as though it was already a done deal. Mr. Misertino stated that everything else with the budget he was fairly happy with and with the new title it is a matter of point and principal as Finance Liaison he was never notified that the title and the increase were going to be in the budget until the last budget meeting.

Mayor Kocher made a motion to adjourn at 10:58pm, which was carried by all.
