NEW JERSEY DEP DIVISION OF FISH & WILDLIFE

Professor Winklebottom's Earth Science Circus

Friday, October 11, 2013 at 6:30 pm

This litter education program, presented by the Grand Falloons, takes participants on a unique and lively exploration of "Our Earth". Attendees will learn what litter is, what limited resources are, why we should recycle, and what happens to garbage after it is put out on the street for collection.

Be prepared for an active learning experience!

REGISTRATION IS REQUIRED

This program is appropriate for organized groups and families.
For more information and to register, call (908) 637-4125. Funding for this program is made possible by Mansfield Township Clean Communities Program.
