**WHEREAS**, the words of that first proclamation still ring true: "Let us solemnly remember the sacrifices of all those who fought so valiantly, on the seas, in the air and foreign shores, to preserve or heritage of freedom, and let us reconsecrate ourselves to the task of promoting and enduring peace so that their efforts shall not have been in vain"; and

**WHEREAS**, the theme for Veteran's Day 2023 is "Forever Honor." This serves as a reminder that we should never forget our veterans and that we should always honor them and their families. Veterans and their families of the past and present deserve our praise as our Nation is grateful to them for their protection and sacrifice.

**WHEREAS**, the citizens of Mansfield Township, of New Jersey, and of the United States continue to live in freedom because of the contributions and sacrifices made by those who served and continue to service in the Armed Forces of the United States in time of national peril; and

**§261-01 PURPOSE:**

The purpose of this ordinance is to prevent stored salt and other de-icing materials from being exposed to stormwater.

This Ordinance establishes requirements for the storage of salt and other solid de-icing materials on properties not owned or operated by the municipality (privately owned), including residences in Mansfield Township to protect the environment, public health, safety, and welfare, and to prescribe penalties for failure to comply.

**§261-02 DEFINITIONS:**

When consistent with the context, words used in the present tense include the future, words used in the plural number include the singular number, and words used in the singular number include the plural number. - B. "Impervious surface" means a surface that has been covered with a layer of material so that it is highly resistant to infiltration by water.
- C. "Storm drain inlet" means the point of entry into the storm sewer system.
- D. "Permanent structure" means a permanent building or permanent structure that is anchored to a permanent foundation with an impermeable floor, and this is completely roofed and walled (new structures require a door or other means of sealing the access way from wind driven rainfall).

A fabric frame structure is a permanent structure if it meets the following specifications:

- 5. Containers must be sealed when not in use; and
- 6. The site shall be free of all de-icing materials between April 16<sup>th</sup> and October 14<sup>th</sup>.

- C. The property owner, or owner of the de-icing materials if different, shall designate a person(s) responsible for operations at the site where these materials are stored outdoors, and who shall document that weekly inspections are conducted to ensure that the conditions of this ordinance are met. Inspection records shall be kept on site and made available to the municipality upon request.
  - 1. Residents who operate businesses from their homes that utilize de-icing materials are required to perform weekly inspections.

Under these circumstances, weekly inspections are not necessary, but repair or replacement of damaged or inadequate containers shall occur within two (2) weeks.

If containerized (in bags or buckets) de-icing materials are stored within a permanent structure, they are not subject to the storage and inspection requirements in **§261-03** above. Piles of de-icing materials are not exempt, even if stored in permanent structure.

This ordinance does not apply to facilities where the stormwater discharges from de-icing material storage activities are regulated under another NJDEP permit.

**WHEREAS**, the Municipal Stormwater Regulation Program (N.J.A.C 7:14A-25) was developed in response to the U.S Environmental Protection Agency's (USEPA) Phase II Rules published in December 1999, which required municipalities to develop and implement a program to reduce discharges of pollutants entering water bodies from stormwater systems known as municipal separate storm sewer systems (MS4s) to the maximum extent practicable; and
