## HONORING EARTH DAY APRIL 22, 2026 PROCLAMATION

**WHEREAS**, The Township Committee of the Township of Mansfield acknowledges Earth Day, founded by the late Honorable Gaylord Anton Nelson from Wisconsin; and

**WHEREAS**, Earth Day focuses on attention and preservation of the planet's natural resources, acknowledging the environmental movement raising awareness of long-term ecological sustainability; and

**WHEREAS**, Earth Day was founded in 1970 and celebrated annually on April 22<sup>nd</sup> on local, national, and global proportions; and

**WHEREAS**, in 2026, the theme of Earth Day will be "Power Our Planet". Power Our Planet is a 2026 global initiative and Earth Day theme focused on transitioning to renewable energy, aiming to triple global clean electricity by 2030. It emphasizes individual actions, community-driven solutions, and financial accountability to fight climate change, move away from fossil fuels, and support vulnerable nations.

**WHEREAS**, Since the first Earth Day in 1970, civic action has helped establish and strengthen environmental institutions, laws, and international norms. These measures have been associated with reductions in pollution-related illness, improved access to clean water, and long-term public health and economic benefits in many parts of the world.

**WHEREAS**, Environmental protections are facing pressure worldwide due to economic stress, conflict, climate impacts, and shifting political priorities. In many countries, regulatory frameworks governing air quality, water safety, land use, and energy systems are under review or revisions.

**WHEREAS**, Environmental policies influence costs borne by households, local governments, and national economies. Changes to these policies affect utility prices, agricultural productivity, insurance availability, disaster recovery expenditures, and public health system. Community engagement provides a mechanism to maintain continuity and accountability when institutional capacity varies.

**WHEREAS**, "Power Our Planet" reflects the documented role of collective action in shaping environmental outcomes beyond formal governance structures alone. Across regions, public participation has influenced standards, enforcement, and local implementation where impacts are felt most directly.

**WHEREAS**, The Township Committee of the Township of Mansfield encourages residents to safely participate in celebrating Earth Day by:

- **Turn off the lights**
- **Plant a tree**
- **Shorten your shower**
- **Recycle**
- **Save leftovers**
- **Shop with conscience**
- 

**THEREFORE, BE IT RESOLVED**, that the Township Committee of the Township of Mansfield declares the week of April 16, 2026 – April 22, 2026, a week-long celebration of Earth Day and encourages residents to participate in the celebration of environmental protection and conservation of our natural resources.

TOWNSHIP OF MANSFIELD  
COUNTY OF WARREN

**ORDINANCE 010-2026**

**ORDINANCE OF THE TOWNSHIP OF MANSFIELD, COUNTY OF WARREN, STATE OF NEW JERSEY AMENDING AND SUPPLEMENTING THE TOWNSHIP CODE BY CREATING CHAPTER 210 ENTITLED "INDIRECT HEAT EXCHANGERS" AS WELL AS AMENDING AND SUPPLEMENTING CERTAIN SECTIONS OF THE LAND USE LEGISLATION, SPECIFICALLY CHAPTER 361 ENTITLED "DESIGN AND PERFORMANCE STANDARDS" BY CREATING SECTION 361-39.1 ENTITLED "INDIRECT HEAT EXCHANGERS" TO REGULATE INDIRECT HEAT EXCHANGERS ALSO KNOWN AS WOOD BOILERS ACROSS ALL ZONING DISTRICTS**

**STATEMENT OF PURPOSE**

The purpose of this Ordinance is to amend certain general and land use legislation of the Mansfield Township Code to regulate the design and performance standards for indirect heat exchangers.

**WHEREAS** the Township Committee of the Township of Mansfield ("Township") is authorized pursuant to the New Jersey Municipal Land Use Law, N.J.S.A 40:55D-1 et seq., to adopt zoning regulations governing the use of land within the Township in order to promote the public health, safety, morals and general welfare; and

**WHEREAS** the Municipal Land Use Law expressly authorizes zoning regulations designed to Municipal Land Use Law; and

**WHEREAS** the Township Committee has determined that the addition and operation of indirect heat exchangers or wood boilers on properties across all zones in the Township has the potential to introduce significant detrimental environmental and related quality of life impact on adjacent properties; and

**WHEREAS** the Township Committee believes that the installation and operation of indirect heat exchangers or wood boilers can be conducted within acceptable standards that mitigate the potential for these detrimental effects on adjacent properties; and

**WHEREAS** establishing such standards within Chapters 210 "Indirect Heat Exchangers" and 361 "Design and Performance Standards" will ensure the proper installation and operating standards for such indirect heat exchangers or wood boilers.

**NOW, THEREFORE, BE IT ORDAINED** by the Township Committee of the Township of Mansfield, County of Warren, State of New Jersey, as follows:

**SECTION I:**

The Township Code of the Township of Mansfield, County of Warren, State of New Jersey is hereby amended and supplemented by the creation of Chapter 210 entitled "Indirect Heat Exchangers," as follows:

**§ 210. Indirect Heat Exchangers.**

## § 210-1. Operation and Enforcement.

### A. Regulations for Use of Indirect Heat Exchangers.

1. Only clean dry wood may be utilized to fire such furnace. Such wood fuel shall consist of dry, seasoned wood or wood pellets. Coal is an allowable fuel when its combustion does not exceed the maximum particulate emission in this section.
2. Particulate emissions from said furnace **shall not exceed forty-four (44) pounds** of particulate per one million British Therman Units (BTUs) produced in the boiler (not delivered to the house).
3. Smoke emissions from indirect heat exchangers
  - (a) No person shall cause, suffer, allow or permit visible smoke to be emitted into the outdoor air from the combustion of fuel in any stationary indirect heat exchanger except as provided in (b) below.
  - (b) No person shall cause, suffer, allow or permit smoke the shade or appearance of which is darker than number 1 on the Ringelmann smoke chart or greater than 20 percent opacity, exclusive of visible condensed water vapor, to be emitted into the outdoor air from the combustion of fuel in any stationary indirect heat exchanger having a rated hourly capacity of 200 million BTU or greater gross heat input and discharging through a stack or chimney having all internal cross-sectional dimensions of 60 inches or greater.
  - (c) The provisions of (a) and (b) above shall not apply to smoke which is visible for a period of not longer than three minutes in any consecutive 30-minute period.

### B. Prohibited fuels.

No person shall burn any of the following items in an outdoor wood-burning furnace:

1. Any wood that does not meet the definition of clean, dry wood.
2. Garbage.
3. Tires
4. Lawn clippings or leaves.
5. Materials containing plastic.
6. Materials containing rubber.
7. Waste petroleum products.
8. Paints and paint thinners.
9. Chemicals
10. Glossy or colored papers.
11. Construction and demolition debris.
12. Plywood or Particleboard.
13. Salt water driftwood.
14. Manure.
15. Animal carcasses.
16. Asphalt products.

17. Treated or painted wood.

18. Any substance that normally emits dense smoke or obnoxious odors.

**C. Compliance with law.**

Indirect heat exchanger(s) must comply with all applicable laws, including but not limited to local ordinances, Board of Health regulations, and federal, state and county laws and regulations.

**D. Visual emission standards.**

1. In addition to adhering to NJ Department of Environmental Protection, N.J.A.C. 7:27-3 ("Prohibition of Smoke from Combustion of Fuels"), no person shall cause or allow a smoke plume to exceed an average of twenty-percent opacity for six consecutive minutes in any one-hour period.
2. Exception: Visible emissions may not exceed forty-percent opacity for twenty (20) consecutive minutes during the set-up period of a new fire. This only includes initial firing of the unit where no coal bed exists. This exception does not apply to refueling.

**E. Nuisance conditions prohibited.**

No person shall operate an outdoor indirect heat exchanger in such manner as to create a public or private nuisance.

No person shall cause or allow emissions of air contaminants to the outdoor atmosphere of such quantity, characteristic or duration that is injurious to human, plant or animal life or to property, or that unreasonably interferes with the comfortable enjoyment of life or property.

Notwithstanding the existence of specific air quality standards or emission limits, this prohibition applies, but is not limited to, any particulate, fume, gases, mist, odor, smoke, vapor, toxic or deleterious emission, either alone or in combination with others.

Municipal officials may enforce this provision according to their general authority-to-abate-nuisances' provisions within this chapter, the New Jersey air quality regulations as well as any other state or county applicable laws or regulations. 361-39.1 Permit required; fee; inspection and approval.

**F. Violations and penalties.**

This ordinance shall be enforced by the Township of Mansfield Zoning Officer and such other municipal officials as may be authorized by law. Each day a violation exists shall constitute a separate offense.

## **SECTION II:**

Chapter 361 entitled "Design and Performance Standards" of the Township Code of the Township of Mansfield, County of Warren, State of New Jersey is hereby amended and supplemented by the creation of a new section, to be codified as **§ 361-39.1** "Indirect Heat Exchangers" as follows:

### **§ 361-39.1. Indirect Heat Exchangers**

#### **A. Definitions.**

As used in this chapter, the following terms shall have the meanings indicated:

**Indirect heat exchangers** (also known as outdoor hydronic heaters, outdoor wood furnace or outdoor wood-fired boilers) means a structure, equipment or fuel-burning device designed to burn wood or other solid or liquid fuels in an outdoor installation which heats building space and/or water via the distribution, typically through pipes, of a fluid typically water or a water/antifreeze mixture or similar heat conducting material heated in the device. It may also be a wood or approved solid-fuel-fired water jacketed stove that provides heat and/or hot water to new or existing stoves.

Chimineas, fireplaces and traditional wood burning stoves do not meet the definition of an indirect heat exchanger and are not subject to this chapter.

**"Department"** means the Department of Environmental Protection.

**"Direct heat exchanger"** means equipment in which heat from the combustion of fuel is transferred to a substance being heated so that the latter is contacted by the products of combustion and may contribute to the total effluent.

**"Fuel"** means solid, liquid or gaseous materials used to produce useful heat by burning.

**"Indirect heat exchanger"** means equipment in which heat from the combustion of fuel is transferred by conduction through a heat-conducting material to a substance being heated, so that the latter is not contacted by, and adds nothing to, the products of combustion.

**"Internal cross-sectional dimension"** means any maximum linear perpendicular distance from an inside wall of a stack or chimney to the inside of an opposite wall, such as the diameter of a circular cross-section or the length or width of a rectangular cross-section.

**"Manufacturing process"** means any action, operation or treatment embracing chemical, industrial, manufacturing, or processing factors, methods or forms including, but not limited to, furnaces, kettles, ovens, converters, cupolas, kilns, crucibles, stills, dryers, roasters, crushers, grinders, mixers, reactors, regenerators, separators, filters, reboilers, columns, classifiers, screens, quenchers, cookers, digesters, towers, washers, scrubbers, mills, condensers or absorbers.

**"Marine installation"** means equipment for propulsion, power or heating on all types of marine craft and floating equipment.

**"Mobile source"** means equipment designed or constructed to be portable or movable from one location to another including but not limited to aircraft, locomotives operating on rails, tractors, earth moving equipment, hoists and mobile power generators.

“**Motor vehicle**” means any vehicle propelled otherwise than by muscular power, excepting such vehicles as run only upon rails or tracks.

“**Opacity**” means the property of a substance which renders it partially or wholly obstructive to the transmission of visible light expressed as the percentage to which the light is obstructed.

“**Ringelmann smoke chart**” means the Ringelmann's scale for grading the density of smoke as published by the United States Bureau of Mines or any chart, recorder, indicator or device which is approved by the Department as the equivalent of said Ringelmann's scale for the measurement of smoke density.

“**Smoke**” means small gas-borne and airborne particles, exclusive of visible condensed water vapor, arising from a process of combustion in sufficient number to be observable.

“**Stack or chimney**” means a flue, conduit or opening designed, constructed, and/or utilized for the purpose of emitting air contaminants into the outdoor air.

“**Visible smoke**” means smoke which obscures light to a degree readily discernible by visual observation.

## **B. Prohibition.**

No person, corporation or entity shall install, construct or operate an indirect heat exchanger furnace unless in compliance with the provisions of this chapter.

## **C. Regulations for use.**

1. Indirect heat exchanger shall only be installed, or operated, on lots of minimize size of **two acres**.
2. Such furnaces must be located at least **fifty feet (50')** from any side or rear yard property line and be located at least **one hundred feet (100')** from the nearest residential structure not served by the furnace. No indirect heat exchanger furnace can be operated in the front yard of the property on which it is located.
3. Furnaces must be located no closer than **thirty feet (30')** from the building it is serving.
4. The indirect heat exchanger furnace shall have a chimney that extends at least **fifteen feet (15')** above the ground surface and according to MSF Installation Specifications.
5. The top of the smokestack or chimney must extend at least **ten feet (10')** above the top roofline of any neighboring residential building and must be located at least **one hundred feet (100')** from the nearest residential structure.
6. All installations and users shall comply with all state laws, New Jersey Department of Environmental Protection regulations, New Jersey Department of Community Affairs and New Jersey State health regulations as well as local and County Board of Health ordinances and regulations.

## **D. Permit Authorization.**

Any person or entity seeking to install and/or operate an indirect heat exchanger furnace shall first apply to the Township of Mansfield for a permit, provide installation information and sign/date an acknowledgement that despite installation of an indirect heat exchanger furnace per specifications and

under an approved permit, does not necessarily ensure that such furnace can be operated consistent with N.J.D.E.P. emission limitations and those outlined in this chapter. ("Indirect Heat Exchanger Construction Code Permit Notice and Acknowledgement").

At the time of filing the application, the applicant shall pay an Application fee of \$250; Escrow Fee \$500.

The Township of Mansfield Zoning Officer or his designee shall inspect and approve the installation and/or operation of the furnace and shall ensure that all required permits and ordinances shall have been obtained or met. No one may install or operate such a furnace without such approval under chapter 361-39.1.

#### **E. Permit Notice Acknowledgement.**

##### Indirect Heat Exchanger Construction Code Permit Notice and Acknowledgement

Under the New Jersey Administrative Codes, Title 7, Chapter 27 (N.J.A.C 7:27), Air Pollution Control, the New Jersey Department of Environmental Protection (DEP) regulates smoke emissions from indirect heat exchangers. Outdoor wood boilers (OWB) and outdoor hydronic heaters (OHH) meet the definition of indirect heat exchangers and are therefore subject to the requirements of N.J.A.C. 7:27-3 "Prohibition of Smoke from the Combustion of Fuels."

Smoke from OWBs or OHHs have been known to exceed DEP's standards. The manufacturers are not required to label, document or otherwise disclose the quantity of smoke produced by these devices. There is no means to predict whether a given outdoor boiler, when in use, will violate the DEP smoke emission limit.

Issuance of a Uniform Construction Code (UCC) permit does not guarantee that a unit will meet the DEP requirements. An outdoor wood boiler that has been installed in accordance with all applicable requirements established under the UCC may still be subject to some future enforcement action by the NJDEP, including penalties to the vendor, installer and property owner. Operating indirect heat exchanger outside of emission limitations established by Township of Mansfield may also subject the operator to municipal enforcement actions.

Homeowners with questions about compliance with the emission standard are advised to contact the NJDEP or the county health department.

COUNTY OF WARREN

**ORDINANCE 011-2026**

**ORDINANCE OF THE TOWNSHIP OF MANSFIELD, COUNTY OF WARREN, STATE OF NEW JERSEY REPEALING CHAPTER 279, "SHORT -TERM RENTALS", OF THE CODE OF THE TOWNSHIP AND AMENDING CHAPTER 363, "ZONING", TO PROHIBIT SHORT-TERM RENTALS OF THIRTY (30) DAYS OR LESS IN ALL ZONING DISTRICTS**

**STATEMENT OF PURPOSE**

The purpose of this Ordinance is repeal Chapter 279, "Short-Term Rentals", of the Code of the Township and amend Chapter 363, "Zoning" to prohibit short-term rentals of thirty (30) days or less in all zoning districts.

**WHEREAS**, the Township Committee of the Township of Mansfield ("Township") is authorized pursuant to the New Jersey Municipal Land Use Law, N.J.S.A. 40:55D-1 et seq., to adopt zoning regulations governing the use of land within the Township in order to promote the public health, safety, morals, and general welfare; and

**WHEREAS**, the Municipal Land Use Law expressly authorizes zoning regulations designed to advance the purposes of the Municipal Land Use Law; and

**WHEREAS**, the Township Committee has determined that short-term rentals for periods of thirty (30) consecutive days or less introduce transient populations that are incompatible with the Township's established residential character; and

**WHEREAS**, the Township Committee finds that the presence of transient lodging uses within residential neighborhoods undermines community cohesion, creates enforcement difficulties, and is inconsistent with the Township Master Plan's goal of preserving the existing housing stock and providing the opportunity for the development of a wider variety of housing types to meet the needs of different income and age levels, family compositions and lifestyles by removing existing housing stock from the market and thus negatively impacting the housing supply and prices for existing and future residents; and

**WHEREAS**, the Township Committee further finds that regulation of short-term rentals is most appropriately addressed through the Township's zoning ordinance so that such uses are clearly identified as prohibited land uses in all zoning districts; and

**WHEREAS**, the Township Committee therefore determines that Chapter 279, "Short-Term Rentals," should be repealed in its entirety, and that the prohibition on short-term rentals should instead be incorporated directly into Chapter 363, "Zoning."

  - (2) Except for farm buildings, no permit shall be issued for the construction of an accessory building prior to the issuance of a permit for the construction of the principal building upon the same premises. If construction of the principal building does not precede or coincide with the construction of the accessory building, the Construction Official shall revoke the construction permit for the accessory building until construction of the principal building has proceeded substantially toward completion.
  - (3) If ponies, horses, cows, sheep, fowl or other farm livestock are kept on any property as provided in this chapter, and building for the shelter and care of such animals is provided, such a building for the shelter and care of such animals is provided, such building shall not be located closer than one hundred (100) feet from any property or street right-of-way line, except as provided in §363-62.
